Chi Heng Foundation Singapore

Singapore UEN 201908784N

Website : [www.chihengfoundation.com](http://www.chihengfoundation.com)

Address : 101 Irrawaddy Road, Royal Square at Novena, #13-10 Singapore 329565.

**Launched in March 2019, Chi Heng Foundation Singapore (CHFS) is a non-government organization with programmes funded by private donors, businesses and partners of NGOs.**

Founded in 1998, Chi Heng Foundation is a registered charitable organisation based in Hong Kong. We have offices in Anhui, Beijing, Guangdong, Guangxi, Henan, Shangdong, Shanghai, Shaanxi, Shanxi, Yunan, Canada and most recently, Singapore. In view of Singapore being a politically stabled and economically healthy country, where the majority of Singaporeans have the privilege to receive good education, we are reaching out for your support to help these HIV impacted children. CHFS would like them to be self-reliant so that they can escape illiteracy and destitution. By so doing, we not only give them hope but a sustainable brighter future as well.

# 知行

把智慧付诸于行动

## “CHI HENG” MEANS “WISDOM IN ACTION”

To be in line with this brand name,  
CHFS has designed various programmes to assist these children.

Children are pillars and future leaders of the world. This truth is a universal consensus and has led to resources of many nations and philanthropic projects geared towards nurturing and grooming of talented children. The talented children centric approach is aimed at cultivating the next generation of government leaders, masterminds of private enterprises, academics and professionals. For these group of children, they are presented with ample opportunities in life.

Ironically few people would focus on the less fortunate children who are coming from under-privileged families. More so, those who are affected by terminal diseases such as AIDS. For a long time, the AIDS children patients are neglected, discriminated and abandoned. They live in despair with no hope of having a brighter future, not to mention a fulfilling life.

Wanting to create a harmonious, equal and healthy society, Chi Heng Foundation focuses on helping children who live in remote villages in China. Essentially, these children contracted the HIV virus from their parents.

**NUS**  
National University  
of Singapore

**SMU**  
SINGAPORE MANAGEMENT  
UNIVERSITY

## **PROVIDE EDUCATIONAL SCHOLARSHIPS**

**NANYANG  
TECHNOLOGICAL  
UNIVERSITY**  
**SINGAPORE**

Chi Heng Foundation Singapore will offer outstanding students from affected villages by giving scholarships to pursue their post-secondary education in Singapore such as National University of Singapore, (NUS) Nanyang Technological University (NTU), Singapore Management University (SMU). These universities are ranked consistently as the world's top 30 universities.

## **OUTBOUND PROGRAMME FOR SINGAPOREAN YOUTHS UNDERSTAND THE CAUSE**

Chi Heng Foundation Singapore will arrange programmes for Singaporean youths to visit affected villages in China. Through these visits, our Singaporean youths can witness and gain an in-depth understanding of the affected children's undesired state of health, poverty and misfortune. This is a good and effective way for our Singaporean youths to reflect and treasure what they have.

# INBOUND PROGRAMME FOR VILLAGE TEENAGERS EXPERIENCE SINGAPORE CULTURE

Chi Heng Foundation Singapore will organize boot camps which are not just for intensive training but to create fun and interactive experiences for the village teenagers to understand the different ethnic cultures in Singapore as well as other new things in Singapore.

## **RECRUIT VOLUNTEERS LIVING IN SINGAPORE AS MENTORS**

Chi Heng Foundation Singapore will recruit volunteers living in Singapore and aims to provide:

- distant-learning classes with the goal of improving their knowledge
- psycho-social support for the emotionally disturbed village children

## **CREATE EMPLOYMENT SPONSORSHIP OPPORTUNITIES**

Chi Heng Foundation Singapore will shortlist some of the village children to come to Singapore to study healthcare and hospitality courses.

There are job opportunities for them in Singapore upon completion because of the shortage of manpower in these sectors in Singapore.

This is an arrangement that can be a win-win situation for both the children and Singapore.

We truly believe and are confident that upon completion of the courses, the village children will stand a high chance to be offered employment here.

# CHI HENG FOUNDATION ECO BAG IS MORE THAN JUST AN ORDINARY ECO BAG

We help the needy to sow the seeds, and they will grow the trees and harvest the fruits

These Eco bags are designed by HIV children as a reflection of their inner world. Many of these unfortunate children came from poor families who were passed the HIV virus through their parents. To help these affected families to become financially independent, Chi Heng Foundation taught the respective parents to produce the Eco bags using designs created by their children with HIV.

**To a buyer** of the Eco bag, it is a symbol of kindness, a desire to help the less fortunate and an act to alleviate poverty in the society.

**To a maker** of the Eco bag, it is a bag filled with their love to their child patient, a mean to be self-reliant and tremendous hope that their child will have a better future.

**To the HIV child**, it represents tremendous hope for a brighter future.
